

Introduction to the use of the Ohio Death Certificate Index
at the
Ohio Historical Society

Filename: OHIODEATHS.TXT

ARCHER Surname Entries
An extracted list for the period 1913 to 1944

Prepared February 12, 2013 by
George W. Archer, Pres. The Archer Associaton
PO Box 6233
McLean, VA 22106

PART 1
Instructions on using this file

To use the Ohio Historical Society's (OHS) search engine without searching all counties and time periods from 1913 to 1944, use the plain text file OHIODEATHS.TXT below BEFORE you go to the OHS search engine at:

<http://ohsweb.ohiohistory.org/death//index.cfm>

If you think you have identified the correct death record from the listing in this file, use the data in OHIODEATHS.TXT to narrow your search to a specific county using the OHS' index search engine listed above. Be sure you scan OHIODEATHS.TXT for middle names and first initials of both middle and given names of those persons you are searching for with a sub-search for known Ohio counties of residence.

Be aware that names on the death certificates that were indexed by OHS may not be the ones used by the deceased as their preferred name or was a complete name because the source of information on the death certificate was not a knowledgeable family member or even a stranger.

When using the OHS search engine be aware that there are two databases for the search engine : 1913-1935 and 1936-1944 located just above the OHS search engine's vertical list of counties. Each time period must be searched separately. The "search" link to activate the search is at the bottom of the county name listing.

OHDEATHS.TXT columns can be reorganized as tab-delimited columns and then resorted to reveal all ARCHERS in a specific county or by death date. The present listing in alphabetical order by given name is the default screen listing of the data using its search engine.

The search engine also offers three other on-screen sort orders but the process is a bit disjointed.

If you select only the surname and "all counties" and then hit the "search link-command, in the next screen of the first set of "hits" look for a link "Change display order:" and click on it to display 4 display orders or sorting orders:

Last Name
First Name
County
Death Date

Using the site's resources, it is possible to resort the fields in any one of the 4 display orders and dump the 10 or more screenloads of ARCHERS to a disk file on your computer (how to dump varies with the computer and operating systems). When changing from one display order to another be sure to go back to the first screen for that display order to apply to all records otherwise the sorting begins at the screen where you gave the new command to display a different display order.

The time period from 1945-1954 is mentioned at OHS' search engine site but is not yet online at that URL. Death Records earlier than 1908 can be ordered but no index is online until 1913.

Online status of index and records:

1867-19 Dec 1908 (probate county records - death not always recorded) (\$12)
20 Dec 1908 - 31 Dec 1953
(Ohio Dept of Health death certificates held by OHS)
20 Dec 1908-1912 - Death certificate index is on microfilm only
1913-1944 - Online index to Death Certificates at OHS
1954-present - index not on line - Death Certificates from Ohio Dept of Health

Data needed to order Death Certificate from OHS for 1908-1953:

1. Full name of deceased as given in the record (Index record?)
2. County of death
3. Date of death, certificate of death or year of death

Death Certificate Forms available:

<http://www.ohiohistory.org/FileLibrary/CollectionsandArchives/ArchivesLibrary/About/DeathRecords/dc-rf.pdf>

I have annotated OHIODEATHS.TXT in the left margin as follows:

- (*) Person already in my collection; the death data added or duplicated mine
- (+) Added full name that was either missing or provisional in the listings based on name and death dates in my files.
- (-) Death date missing in the 1998 online list, but I added to the last version of the list downloaded in 12 Dec 2012.

Not all of the entries in OHDEATHS.TXT have been reviewed and annotated. In 1998 I downloaded Archer entries for 1913-1927 and 1933-1937 and reviewed and integrated the data into my collection. Eventually I'll review the intervening years' data and selectively integrate it into Archer records I already have. Because I may have more information besides death data from OHS on anyone in the listing, researchers should consult me directly for more information:

garcher@wdn.com
February 12, 2013

Let the user beware: The State of Ohio about 2009-2010? increased the cost of a copy from \$.50 (postpaid) to \$7 (or \$12?) and offered only certified copies. That price hike was for revenue purposes to cover Ohio's budget deficit.

Prepared: February 12, 2013

PART 2

OHIODEATHS.TXT
ARCHER Death Certificates
in alpha order by given name
in two sections:
1913-1935 and 1936-1944

Be sure to check 6 entries with no given names before "A" and "Stillborn" and "Unnamed" in the 1913-1935 section.

Some given names, but not middle names are truncated by OHS' search engine or database to 7 characters, and I did not edit them not knowing the correct, full name.
